

# TanTime™ System™ End Of Line Terminator, SY-EOL-4W™ Instructions for Use.

**What it is:** The End of Line Terminator (SY-EOL-4W) is a small electronic device used to terminate data signals in the last timer connected in a daisy chain. It is approximately 3" long and 1/2" wide with a 4 contact modular plug and one 4" long red wire on one end and a red Light Emitting Diode (LED) at the other. (See Figure 1)

**What it is for:** The purpose of the SY-EOL-4W is to terminate daisy chain communication signals in a manner that will prevent data errors in the system. The SY-EOL-4W is plugged into the last timer in the daisy chain when that timer is an RU-XM™ Timer or other timer brand using a 4-contact modular jack.

**How to use it:** Simply plug the SY-EOL-4W into the 4 contact modular jack in the last timer of the daisy chain. Loosen the terminal screw on the "+" terminal of J5, the power in connector on the RU-XM™ Timer. (If the last timer in the chain is another brand and uses a 4-contact modular jack, loosen the "+" terminal of that timer's power input terminals.) Place the loose end of the red wire in the "+" terminal along with the power supply wire and tighten the screw on both wires. If using the TanTime™ SY-EOL-4W is an active device and requires 12 volts D.C. power. The basic rule is: "If the LED on the SY-EOL™ does NOT illuminate when connected and the Timer is on, the red wire was probably placed in the wrong connector contact.

# Trademarks and Support

## Trademarks

These products carry the trademark of TanTime™ and EPaD™. All the trademarks of component parts used by TanTime™/EPaD™ in the manufacture of these products are the property of the respective owners. The TanTime™ Logo and System™ name and Logo are trademarks of EPaD™.

Written, designed, and illustrated by Electronic Programming and Design, Inc. (EPaD™) P.O. Box 81163, Seattle, WA 98108, USA.

## The Company

Since 1994, TanTime™, a Division of Electronic Programming and Design, Inc. Has been developing and manufacturing enhanced digital timer systems for the indoor tanning industry.

TanTime™ continually accesses the most innovative design technology available incorporating state of the art technology in all it's Products. As an industry leader, TanTime™ updates and adds new products to it's growing line of digital timers and strives for complete customer satisfaction by providing a quality product and unsurpassed customer support.

## Support

### TanTime™ Dedication

TanTime™ is dedicated to ensuring that you receive the best customer support and technical assistance possible. To ensure that you receive the most efficient help possible, please be ready to produce model numbers of the TanTime™ equipment in concern and product part numbers. For repairs and returns please be prepared to produce date of purchase, name of original purchaser, and PO Number. An RMA is required for all returns including both repairs and return-for-credit equipment returns.

### Customer Support

**Telephone:** Call TanTime™ / EPaD at **206-767-7262** Pacific Time M-F 9 AM to 5 PM, PST

**Email:** TanTime™ Technical Support: [info@tantime.com](mailto:info@tantime.com)

### Returns and Repairs:

**NOTE:**

A Return Merchandise Authorization (RMA) number must be obtained from TanTime™ prior to shipping equipment to us for repair or return.. The customer is responsible for all shipping costs.

To be issued an RMA Number Call TanTime™ at 206-767-7262, M-F, 9 AM to 5 PM, PT.

### Shipping / Mailing Address:

You will receive the shipping address when obtaining your RMA number.

### **Sales - Ordering Additional Equipment:**

**Telephone:** Call TanTime™ at 206-767-7262, Pacific Time, M - F, 9A - 5P.

**Email:** [info@tantime.com](mailto:info@tantime.com)

**Visit Web Site:** [www.tantime.com](http://www.tantime.com)
